

Maryland's 2024-2025

# Conservation Buffer Initiative

## Farmers & Landowners:

Turn marginal land next to streams or floodplains into a valuable asset for both your farm and local water quality.

Maryland's Conservation Buffer Initiative offers attractive incentive payments to plant trees next to streams, easy sign-up, and a full range of management options for farmers who want to improve the health of local streams and the Chesapeake Bay.

## PROGRAM HIGHLIGHTS

Attractive incentive payments to plant riparian forest buffers are available again this year. These payments are on top of the **\$4,000 or \$4,500** per acre that you will receive to install the buffer. These incentives include:

- A one-time, **\$1,000 per acre** signing bonus to plant a streamside forest buffer.
- Receive up to **\$330 per acre**, per year to help cover maintenance costs for forest buffer health during the first 5 years of the contract.
- Please apply for this program at your local soil conservation district.
